**INNOVATIVE SITE LIGHTING**

## **San Clemente makes a bold statement**

The City of San Clemente wanted a bold, performance luminaire that would fit the design of their streetscape. This large scale luminaire shown as a traffic pendant and post top fit both applications well. Scaling almost 6' high this decorative luminaire appointed with a fanciful crown has tapered side bars that fit into the decorative scroll fitter all constructed of heavy duty cast aluminum. HID and LED lamping is available with a choice of multiple distribution options: (Type 2, 3, 4 and 5). This decorative luminaire is available for roadway and pedestrian applications. Sealed photo control compartment and tool-less entry for ease of maintenance.
