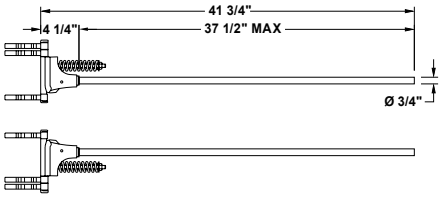
Specification BSS



BSS
Bannersaver™ Standard
Sold in Pairs

EPA: 0.50
Weight: 6 lbs.

Made in USA | Family-Owned Business | c UL us | BAA

Project Name: _____

Fixture Type: _____ **Quantity:** _____

Customer: _____

Specifications

General:
Spring-loaded banner arm dramatically increases maximum allowable banner size. For banners up to 20 square feet. Windtunnel tested to withstand NWS-rated, tornado-force winds. Reduces stress on poles and banners. Fiberglass arm can be cut-to-length in field.

Material:
Pole clamp is cast aluminum. Arms are black fiberglass, natural finish. Pole straps are stainless steel.

Finish:
A polyester powder coat high quality finish.

Buy American:
This product is assembled in the USA and meets the Buy America(n) government procurement requirements under FAR, DFARS, and DOT regulations. Click here for additional information.

Other:
Please consult factory regarding maximum allowable banner size for your pole application. Please consult factory if for use with tapered poles.

FINISHES

- A polyester powder coat high quality finish is electro-statically applied and baked at 430° for exceptional durability and color retention. Products undergo an intensive five-step cleansing and pre-treatment process for maximum paint adhesion. Marine grade finish provides superior salt, humidity and UV protection. This coating withstands up to 3,000 hours of continuous salt spray.

WARRANTY

- ANP Lighting warrants our standard high-quality finishes are processed and treated to create a lasting protection. ANP Lighting does not warrant paint and material finishes when Product(s) is installed in a salt air coastal application unless the product(s) is ordered with Optional Marine Grade Powder Coat Finish. Warrany for either paint option is five (5) years from date of shipment.
