FINISHES

- A polyester powder coat high quality finish is electro-statically applied and baked at 430° for exceptional durability and color retention. Products undergo an intensive five-step cleansing and pre-treatment process for maximum paint adhesion. Marine grade finish provides superior salt, humidity and UV protection. This coating withstands up to 3,000 hours of continuous salt spray.

WARRANTY

- ANP Lighting warrants our standard high-quality finishes are processed and treated to create a lasting protection. ANP Lighting does not warrant paint and material finishes when Product(s) is installed in a salt air coastal application unless the product(s) is ordered with Optional Marine Grade Powder Coat Finish. Warrany for either paint option is five (5) years from date of shipment.
